Husband & Wife Team

Learn exactly how we started **4 profitable home-based businesses – step-by-step.**

But what you may benefit from most is The Good, Bad, and Ugly Truth we'll tell you about the many pitfalls we've survived.

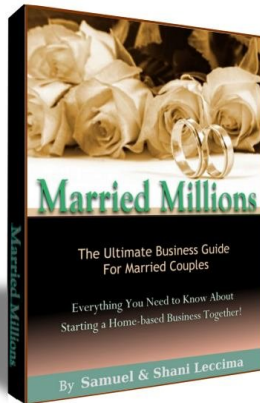

You and your spouse needn't make our past business mistakes!

We thought we knew so much – and we did. But sometimes, we simply didn't know enough. We paid the ***Don't Know Tax*** many times. Talk about the School of Hard Knocks!

You see, we'd run a real estate office for several years. But as our family grew and the economy contracted, we started to fall behind the economic 8-ball. It soon became apparent that running one business in a shaky economy was a recipe for economic disaster. We felt that creating other side initiative together was the smart thing to do.

Back then, the home-based business world was new to us. We made costly errors – one to the painful tune of \$20,000. We now know what we lacked was an inside track, basically a mentor – someone to help us head-off the costly business traps and shine light on everything else.

We networked with likeminded couples around the country and learned a lot. For the past 4 years, we've served as consultants to many of them! It's another meaningful passion we share!

If you're serious about a couple-only venture, you'll value all that we share in

Married Millions: **The Ultimate Business Guide for Couples**

We offer you over 100 pages of knowledge, advice, and resources to get started – and keep going. We'll flatten your learning curve if you're like we were, grappling with questions such as:

- ✎ What type of business can we *really* commit to?
- ✎ Should we pursue network marketing? And what about our fascination with the eBay explosion? Can you really make money there?
- ✎ Also, what about information marketing? Can couples create a real income from home in that industry?
- ✎ How do I create a business plan that secures financing?
- ✎ What are the latest marketing techniques, online and offline?
- ✎ How to make it legal, and handle our revenue and taxes?

If you're at all unclear about any of these matters, don't move another business muscle until you've read this information.

**We've compiled all the
Financial, Legal, Marketing and other steps
you need to know.**

We've also included compelling anecdotes about other couples who've stepped out on their own – and love it!

Securing your future is doable, and you can do it with an exciting new undertaking of your own. It's a blessing that's happened for us. Once we smartened-up, our once fledgling businesses took off. Now they provide a way for us to:

- ✎ Enjoy multiple income streams from ventures online and offline.
- ✎ Live comfortably enough to support our four daughters' ambitions,
- ✎ Take family vacations twice a year. (Brazil has become our home-away-from home!)

The path to greater financial freedom is closer than you know. If you're exploring a joint venture, we offer you the ebook that's a couple's first, best resource for examining the landscape of opportunities and getting started with one that's perfect for the two of you!
